

Anya Jiménez Krislav

Miami, FL | anya.krislav@duke.edu | (305)-215-2169 | <https://www.linkedin.com/in/anya-krislav/>

EDUCATION

Duke University

BSE Electrical and Computer Engineering, BS Computer Science | GPA: 3.75/4.0

Relevant Coursework: Linear Algebra, Multivariable Calculus, Probability, Data Structures & Algorithms, Social Life of Numbers

Expected: May 2029

Durham, North Carolina

Gulliver Preparatory

High School Diploma

August 2021 – June 2025

Miami, Florida

Honors & Awards: Gulliver Cup (all-around outstanding graduate); Senior Department Award for Engineering, Computer Science, & Biomedical Science; Johns Hopkins Book Award; Miami Herald Silver Knight Nominee: General Scholarship; Cum Laude Society; National Honor Societies: NSTEM (Founder, Executive Chair), Math (VP), Computer Science (VP), NHS, Spanish, Science, Rho Kappa

University of Miami - Miami, Florida

College Credit: Introduction to Abstract Algebra

August 2024 – December 2025

Miami, Florida

EXPERIENCE

Duke Electric Vehicles (DEV)

Telemetry Device Lead; Communications (Electrical) Subteam

August 2025 - Present

Durham, North Carolina

- Led the end-to-end development of a long-range (2.5 mi) telemetry device integrated into DEV's competition car, enabling real-time data transmission from the CAN bus via ESP32-to-ESP32 LoRa communication
- Designed the device's electrical schematic and implemented C++ firmware for reliable data acquisition and error-tolerant signal processing. Developed a React & Typescript-based UI for streamlined data visualization and diagnostics

ForensiS Technologies, LLC

Software and Hardware Engineer

June 2025 – August 2025

Miami, Florida

- Built a Python-based internal tool to digitize and process production records, streamlining operations and reducing manual data entry
- Performed hardware rebuilds and maintenance on high-throughput production scanners and diagnosed server-based IT issues

Harvard Undergraduate OpenBio Laboratory Student Research Institute (SRI)

Summer 2024

- One of 71 students selected from 1,800 applicants to participate in SRI cohort
- Conducted and presented a comprehensive literature review comparing the accuracy of several AI modalities in the early detection of myocardial infarctions; research abstract published in: *The Young Researcher, Fall 2024 Volume 8, Number 2* "Early Prediction of Myocardial Infarctions Utilizing Artificial Intelligence: A Review of Current Modalities and their Benefits"

FIRST Robotics Gulliver Team

Captain (12th), Software & Electrical Subteam Lead (11th - 12th)

September 2021 - June 2025

Miami, Florida

- Led Java software development team of 10 students implementing computer vision-based real-time localization, sensor fusion via Kalman filters, dynamic path finding and following, and holonomic drivetrain optimization
- Competed at FIRST World Championships (first in school history); earned multiple 1st-place and regional finalist finishes
- Oversaw mechanical and electrical design teams of 40 students; Designed and wired complete electrical systems for the team's robots; Managed a \$57,500 budget

LEADERSHIP, INVOLVEMENT, AND ACTIVITIES

Bake-A-Wish Cakes Miami, Inc. (501(c)(3))

President (11th - 12th)

August 2021 - July 2025

Miami, Florida

- Managed the baking and delivery of 625+ birthday cakes annually to underprivileged children across South Florida
- Led all aspects of the organization including weekly scheduling, training, recruiting, and writing grant proposals
- Raised over \$10,000 through grant solicitations and new fundraising pitch deck

Duke eNable

Project Iteration Member; Project Leyman Member

August 2025 - Present

Durham, North Carolina

- Develop and test 3D printed wrist prosthetic adapter piece and attachments for amputee client to increase mobility in daily tasks
- Developing a full-scale robotic arm prototype with DC motors; improving EMG acquisition circuitry to reduce signal noise and began integrating EMG-based motor control

SKILLS AND INTERESTS

Skills: Programming Languages: Java, Python, C++, React, Typescript; Technologies: Github, OnShape, Fusion, Arduino, ElectricUI

Languages: Fluent in Spanish (Native Fluency), Hebrew (Limited Working Proficiency)

Interests: Duke SWE, Duke Club Basketball, Temple Beth Am Choir (Soprano Soloist), ML, Trading, Health, Robotics, Backpacking

Other:

Jane Street Focus Program

Camp matoaka camp counselor / lifeguard / Health Office Intern
